AND SUBSIDIARY**

Consolidated Financial Statements
December 31st, 2021 and 2020 with
Independent Auditors' Report

First State Bank

Dear Shareholder:

I am pleased to report our consolidated net income for 2021 was \$6,591,390 which is up 10.01% from 2020. Net interest income (up 11.90%) contributed to our success. Our allowance for loan loss as of 12/31/2021 was \$4,888,202 or 1.30% of total loans. Net charge offs for 2021 were \$139,094 (0.04% of average loans) which is down from \$627,918 (0.19%) in 2020.

Other 2021 highlights included:

- Net Loans were \$371,949,034 at year-end up 18.69% from prior year
- Investment Securities were \$346,055,019 up \$139.1 million
- Deposits were \$716,169,149 at year-end adding \$204.8 million in balances
- Total shareholders' equity was \$73,798,471 up \$10.5 million

The pandemic did hang on in 2021 and introduced new COVID-19 variants, but businesses have adapted and consumers have added to savings. The S & P 500 delivered a 26.89% positive return in 2021 and the national unemployment rate reduced to 3.9% in December 2021. That's the good news. The bad news is inflation reached its highest level in 40 years with the Consumer Price Index (CPI) climbing to 7.0% in December 2021. We feel there is a possibility the Federal Open Market Committee (FOMC) may raise the fed funds rate in 2022 based on multiple economic forecasts. For the most part, higher rates will be positive for the banking industry's overall performance.

We completed our first acquisition in Kentucky in February of 2021 including offices in the Eastern Kentucky region of Lawrence and Martin Counties. The Community Holding Company (parent of Inez Deposit Bank) was led by Robert (Mike) Duncan and his family for four generations and reported at December 31, 2020 approximately \$153 million in assets and \$140 million in deposits. Our combined teams will continue to deliver the service that customers expect.

In December of 2021, we completed a private placement offering issuing an additional 108,000 shares of First State Bancorp Inc., common stock at \$90.00/share. This raised an additional \$9.7 million in common equity for future growth opportunities.

We are pleased to report the current appraised value of First State Bancorp, Inc. stock as of 12/31/2021 is \$95.00/share, up 9.83% from 12/31/2020.

We've been "Built on Belief" since 1884. Many things have changed since then, but our beliefs remain the same. We believe in rural communities. We believe in the value of hard work. We believe in looking you in the eye and telling the truth. We believe in doing what's right. We believe your value has nothing to do with money. We believe how you treat people matters. And we believe when we build up our customers, our communities, and each other, we can make a lifelong difference.

First State Bank, "Built on Belief"

Thank you for your continued support.

Sincerely,
Michael P Pell
President / CEO

First State Bank

DAVID E. RICHEY EXECUTIVE VICE PRESIDENT / CHIEF FINANCIAL OFFICER

Your company had another very successful year in 2021 despite challenges related to the COVID-19 pandemic, excess liquidity, and net interest margin. First State Bancorp, Inc. was able to produce record earnings due to strong non-interest income and asset growth related to the merger with Community Holding Company/Inez Deposit Bank in February 2021. We feel net income will continue to grow as we put more assets to work in loans in 2022 and beyond. 2021 was the 17th consecutive year of improved net income for the company.

In 2021, your investment in First State Bancorp, Inc. returned a dividend of \$1.72 per share up from \$1.60 one year ago. The book value of your stock ended the year at \$82.00 per share, up from \$79.89 one year ago.

Thank you for your role in making First State Bank a success.

First State Bank

A SPECIAL THANKS TO OUR BOARD MEMBER, **WILLIAM "BILL" SHELBY**

After 35 years of serving on the First State Bank Board of Directors, director William "Bill" Shelby retired as of December 31, 2021. Mr. Shelby is the former owner of Shelby Oil Company in Seaman, Ohio and has served the Village of Seaman as a councilman for many years. Bill resides in Seaman with his wife, Nancy.

"First State Bank has a long history of outstanding board members and we appreciate all of Bill's years of leadership for the bank and we look forward to continuing our mission of being "Built on Belief" - doing right by rural communities and making a lifelong difference in people's lives" said Mike Pell, President and CEO of First State Bank.

INTRODUCING OUR NEWEST BOARD MEMBER, **ERIC TOOLE**

The Board of Directors at First State Bank is also pleased to announce that Eric Toole has been appointed to serve as a new director effective January 1, 2022. Mr. Toole is a Certified Public Accountant (CPA) and is the Treasurer/CFO of the Georgetown Exempted Village School District in Georgetown, Ohio. He received a Bachelor of Science in Accounting from the University of Rio Grande in 1995. Eric resides in Seaman with his wife, Lisa, and daughters Maddie, Mackenzie, and Myla.

INDEPENDENT AUDITORS' REPORT

Board of Directors
First State Bancorp, Inc. and Subsidiary:

Opinion

We have audited the accompanying consolidated financial statements of First State Bancorp, Inc. and Subsidiary which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of First State Bancorp, Inc. and Subsidiary as of December 31, 2021 and 2020, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of First State Bancorp, Inc. and Subsidiary and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about First State Bancorp, Inc. and Subsidiary's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of First State Bancorp, Inc. and Subsidiary's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about First State Bancorp, Inc. and Subsidiary's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain control related matters that we identified during the audit.

See accompanying notes to the consolidated financial statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES:

The following accounting policies are set forth to facilitate the understanding of data presented in the consolidated financial statements:

Nature of operations

First State Bancorp, Inc. (the Company) and First State Bank (the Bank) revenues, operating income and assets are primarily from the banking industry. The Bank operates seventeen branches in Adams, Brown, Highland, Fayette, Clinton, and Hamilton Counties in Ohio and in Martin and Lawrence County in Kentucky. The Bank generates commercial, mortgage and consumer loans and receives deposits from customers located primarily in South Central Ohio and Eastern Kentucky. Substantially all loans are secured by specific items of collateral including business assets, consumer assets, and commercial and residential real estate. Commercial loans are expected to be repaid from cash flow from operations or businesses. There are no significant concentrations of loans to any one industry or customer. However, the customers' ability to repay their loans is dependent on the real estate and general economic environment in the area.

The Bank is a state-chartered bank subject to regulation by the Ohio Department of Commerce, Division of Financial Institutions and the Federal Deposit Insurance Corporation (FDIC). The Bank is also a member of the Federal Home Loan Bank (FHLB) system, and as a member, maintains a required investment in the capital stock of the FHLB of Cincinnati.

Deposit accounts are insured within certain limitations by the Deposit Insurance Fund (DIF), which is administered by the FDIC. An annual premium is required by the DIF for insurance of such deposits.

Basis of presentation

The accounting and reporting policies of the Company conform with accounting principles generally accepted in United States of America (GAAP) as contained in the Accounting Standards Codification (ASC) issued by the Financial Accounting Standards Board (FASB) and general practices within the financial services industry.

Principles of consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary the Bank. All significant intercompany transactions have been eliminated in consolidation.

Use of estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the allowance for loan losses. Actual results could differ from those estimates.

Cash flows

Cash and cash equivalents include deposits with other financial institutions with maturities fewer than 90 days and federal funds sold. Net cash flows are reported for customer loan and deposit transactions, interest bearing deposits in other financial institutions, and federal funds purchased and repurchase

agreements.

The Company and Bank may at times maintain deposit accounts with other financial institutions in excess of FDIC limits. The Company and Bank have not experienced any losses in such accounts and do not believe they are exposed to any significant credit risk on cash.

Investment securities

Investment securities are classified as held-to-maturity and carried at amortized cost when management has the positive intent and ability to hold them to maturity. Investment securities are classified as available-for-sale when they might be sold before maturity for any reason, including liquidity needs, changes in market interest rates, or asset/liability management strategies. Investment securities available-for-sale are carried at fair value with unrealized holding gains and losses reported separately in shareholders' equity, net of applicable taxes. Available-for-sale equity securities are reported at fair value, with unrealized holding gains and losses recognized in the consolidated income statement.

Interest income includes amortization of purchase premiums or discounts. Premiums and discounts on securities are amortized on the level-yield method without anticipating prepayments, except for mortgage backed securities where prepayments are anticipated. Gains and losses on sales are recorded on the trade date and determined using the specific identification method.

Management evaluates securities for other-than-temporary impairment (OTTI) on at least a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. For securities in an unrealized loss position, management considers the extent and duration of the unrealized loss, and the financial condition and near-term prospects of the issuer. Management also assesses whether it intends to sell, or more likely than not will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as impairment through earnings. For debt securities that do not meet the criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which is recognized in the consolidated income statement and 2) OTTI related to other factors, which is recognized in other comprehensive income. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and amortized cost basis. For equity securities, the entire amount of impairment is recognized through earnings.

Loans held-for-sale

Mortgage loans originated and intended for sale in the secondary market are carried at the lower of aggregate cost or fair value, as determined by outstanding commitments from investors. Net unrealized losses, if any, are recorded as a valuation allowance and charged to earnings.

Mortgage loans held-for-sale are generally sold with servicing rights retained. The carrying value of mortgage loans sold is reduced by the amount allocated to the servicing right. Gains and losses on sales of mortgage loans are based on the difference between the selling price and the carrying value of the related loan sold.

Loans receivable

Loans which management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at the principal balance outstanding, net of deferred loan fees and costs, and an allowance for loan losses. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized in interest income using the level-yield method without anticipating prepayments.

Loans are placed on non-accrual status at 90 days delinquent or when management believes the borrower's financial condition, after considering economic and business conditions and collection efforts, is such that collection of interest is doubtful. Interest income is not reported when full loan repayment is in doubt, typically when payments are past due over 90 days and evaluated as such by management. Loans are charged against the allowance for loan losses when management believes that the collectability of the principal is unlikely.

All interest accrued but not received for loans placed on non-accrual is reversed against interest income. Interest received on such loans is accounted for on the cash-basis, until qualifying for return to accrual. Under the cash-basis method, interest income is recorded when the payment is received in cash. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for loan losses

The allowance for loan losses is a valuation allowance for probable incurred credit losses. Loan losses are charged against the allowance when management believes the uncollectability of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. Management estimates the allowance balance required using past loan loss experience, current loan to value, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, and other factors. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged-off.

The allowance consists of specific and general components. The specific component relates to loans individually classified as impaired or loans otherwise classified as substandard or doubtful. The general component covers non-classified loans and is based on historical loss experience adjusted for current environmental factors.

A loan is impaired when, based on current information and events, it is probable the Bank will be unable to collect all amounts due according to the contractual terms of the loan agreement. Loans, for which the terms have been modified, and for which the borrower is experiencing financial difficulties, are considered troubled debt restructurings and classified as impaired.

Factors considered by management in determining impairment include payment status and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all relevant circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed.

In situations where for economic or legal reasons related to a borrower's financial difficulties, management may grant a concession for other than an insignificant period of time to the borrower that would not otherwise be considered, the related loan is classified as a troubled debt restructuring (TDR). These modified terms may include rate reductions, principal forgiveness, payment forbearance and other actions intended to minimize the economic loss and to avoid foreclosure or repossession of the collateral.

Troubled debt restructurings are measured at the present value of estimated future cash flows using the loan's effective rate at inception including the probability of re-default. If a TDR is considered to be a collateral dependent loan, the loan is reported net, at the fair value of collateral. For troubled debt restructurings that subsequently default, the Bank determines the amount of reserve in accordance with the accounting policy for the allowance for loan losses.

The general component covers non-impaired loans and is based on historical loss experience adjusted for current factors. The historical loss experience is determined by portfolio segment and is based on the actual loss history. This actual loss experience is supplemented with other economic factors based on the risks present for each portfolio segment. These economic factors include consideration of the following: current loan to value, current credit score, levels of and trends in delinquencies and impaired loans; levels of and trends in charge-offs and recoveries; trends in volume and terms of loans; effects of any changes in risk selection and underwriting standards; other changes in lending policies, procedures, and practices; experience, ability, and depth of lending management and other relevant staff; national and local economic trends and conditions; industry conditions; and effects of changes in credit concentrations. The following portfolio segments have been identified: residential real estate, commercial real estate, commercial and industrial and consumer. The Bank reviews the credit risk exposure of all its portfolio segments by internally assessing risk factors. Risk factors impacting loans in each of the portfolio segments include broad deterioration of property values, and reduced credit availability.

Servicing rights

When mortgage loans are sold with servicing retained, servicing rights are initially recorded at fair value with the consolidated income statement effect recorded in gains on sale of loans. Fair value is based on market prices for comparable mortgage servicing contracts when available, or alternatively, based on a valuation model that calculates the present value of estimated future net servicing income. All classes of servicing assets are subsequently measured using the amortization method which requires servicing rights to be amortized into non-interest income in proportion to, and over the period of, the estimated future net servicing income of the underlying loans.

Servicing rights are evaluated for impairment based upon the fair value of the rights as compared to their carrying amount. Impairment, if any, is recognized through a valuation allowance to the extent that fair value is less than the carrying amount. If the Bank later determines that all or a portion of the impairment no longer exists, a reduction of the allowance may be recorded as an increase to income. The fair values of servicing rights are subject to significant fluctuations as a result of changes in estimated and actual prepayment speeds and default rates and losses.

Servicing fee income is recorded in other service charges and fees within the consolidated income statement. The fees are based on a contractual percentage of the outstanding principal; or a fixed amount per loan and are recorded as income when earned. The amortization of mortgage servicing rights is netted against loan servicing fee income.

Lender risk account

The Bank provides credit enhancements to the FHLB of Cincinnati by sharing losses with other members of the program in an aggregated pool. A Fixed Lender Risk Account (LRA) has been established and is maintained by the FHLB on behalf of the Bank and other members selling mortgages to the FHLB of Cincinnati. The LRA amount is established as a percentage applied to the sum of the initial unpaid principal balance of each mortgage in the aggregated pool at the time of the purchase of the mortgage as determined by the FHLB and is funded by the deduction from the proceeds of sale of each mortgage in the aggregated pool to the FHLB. These accounts are held by the FHLB and the Bank bears the risk of receiving less than 100% of its LRA contribution in the event of losses, either by the Bank or other members selling mortgages in the aggregated pool. Any portion of the LRA not used to pay losses will be released over a thirty-year period and will not start until the end of five years after the initial fill-up period. The fair value of the LRA is recorded in other assets and increased noninterest income within the consolidated financial statements.

Other real estate owned (OREO)

Other real estate owned is initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. Physical possession of real estate property collateralizing a mortgage loan occurs when legal title is obtained upon completion of foreclosure or when the borrower conveys all interest in the property to satisfy the loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. If fair value declines subsequent to foreclosure, a valuation allowance is recorded through expense. Operating costs after acquisition are expensed as incurred.

Premises and equipment

Land is carried at cost. Premises and equipment are stated at cost, less accumulated depreciation computed on straight-line methods over the estimated useful lives of the related assets. Buildings and improvements are depreciated over useful lives ranging from 3 to 39 years. Furniture, fixtures and equipment are depreciated over useful lives ranging from 3 to 20 years. Gains and losses on dispositions are included in current operations. Maintenance and repairs are expensed as incurred while major additions and improvements are capitalized.

Federal Home Loan Bank stock

The Bank is a member of the FHLB system. Members are required to own a certain amount of stock based on the level of borrowings and other factors and may invest in additional amounts. FHLB stock is carried at cost, classified as a restricted security, and periodically evaluated for impairment based on ultimate recovery of par value. Both cash and stock dividends are reported as income.

Bank owned life insurance

The Bank has purchased life insurance policies on certain key executives. Bank owned life insurance is recorded at the amount that can be realized under the insurance contract at the consolidated balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due which are probable at settlement.

Community Holding Company and Inez Deposit Bank Acquisition

In February 2021, the Company acquired Community Holding Company and Inez Deposit Bank (Inez) which was headquartered in Inez, Kentucky by paying cash to the former stockholders. The acquisition is accounted for as a stock acquisition, which included all of the assets and liabilities of Inez. In accordance

with GAAP, assets acquired and liabilities assumed are recorded at their fair values. Management measured loan fair values based on loan file reviews (including borrower financial statements or tax returns), appraised collateral values, expected cash flows at contractual interest rates and historical loss factors of Community Holding Company and Inez Deposit Bank. The net fair value adjustment to loans was immaterial to the overall financial statements. Real estate acquired through foreclosure was primarily valued based on appraised collateral values. The Company recorded a core deposit intangible asset of \$854,000 based on management's calculation of the sum of the present value of future cash flows of the various deposits acquired. An interest rate adjustment on deposits of approximately \$505,000 was recorded upon acquisition due to CD and IRA interest rates acquired being higher than existing CDs and IRAs originated by the Company. Purchase price accounting associated with the acquisition is as follows:

Cash consideration	\$ <u>13,784,906</u>
Fair value of net assets acquired:	
Cash	\$ 65,939,743
Securities, available-for-sale	38,530,623
Loans receivable	41,213,011
Premises and equipment	2,226,007
Other assets	726,730
Intangible assets	854,000
Deposits	(135,608,117)
Other liabilities	<u>(605,276)</u>
Fair value of net assets acquired	<u>13,276,721</u>
Goodwill resulting from acquisition	\$ <u>508,185</u>

Goodwill resulting from the acquisition will be amortized over ten years. Due to this being a stock acquisition, goodwill amortization is disallowed for tax purposes. The core deposit intangible will be amortized over the assumed average life of the core deposits. The CD adjustment will be accreted into income over the assigned 18-month life.

Intangible assets

Intangible assets consist of premiums paid for core deposits identified through fair value accounting of bank branches acquired in 2014, 2016, and the acquisition of Inez in 2021. Intangible assets are stated at cost, less accumulated amortization computed on straight line and net present value methods over the estimated life of the related premium, and consist of the following:

	<u>2021</u>	<u>2020</u>
Intangible assets, net - January 1	\$ 29,308	67,683
Amortization expense	(286,466)	(38,375)
Core deposit intangible on acquisition in 2021	<u>854,000</u>	<u>-</u>
Intangible assets, net - December 31	<u>\$ 596,842</u>	<u>29,308</u>

Accumulated amortization was \$4,548,654 and \$4,262,188 at December 31, 2021 and 2020, respectively. Future amortization expense is as follows:

2022	235,430
2023	149,542
2024	97,300
2025	63,450
2026	36,200
Thereafter	<u>14,920</u>
	<u>\$ 596,842</u>

Goodwill

Goodwill arises from business combinations and is generally determined as the excess of the fair value of the consideration transferred over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. Goodwill consists of the branch acquisition of the Washington Court House branch in 2014, the merger of First Safety Bank in 2016, and the acquisition of Inez in 2021. The Company made the accounting policy election to test goodwill for impairment at the entity level and to amortize the goodwill on straight line basis over ten years upon acquisition.

Goodwill consists of the following:

	<u>2021</u>	<u>2020</u>
Goodwill, net - January 1	\$ 1,243,752	1,488,784
Amortization expense	(287,380)	(245,032)
Goodwill from acquisition in 2021	<u>508,185</u>	<u>-</u>
Goodwill, net - December 31	<u>\$ 1,464,557</u>	<u>1,243,752</u>

Accumulated amortization was \$1,493,936 and \$1,206,556 at December 31, 2021 and 2020, respectively. Future net amortization expense is as follows:

2022	\$ 295,849
2023	295,849
2024	255,886
2025	242,562
2026	162,669
Thereafter	<u>211,742</u>
	<u>\$ 1,464,557</u>

Income taxes

Income tax expense is the total of the current year income tax due, the change in deferred federal income taxes and benefit of available tax credits. Deferred federal income taxes represent the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for federal income tax purposes. A valuation allowance, if needed, reduces deferred tax assets to the amount expected to be realized.

Net income per share of common stock

Net income per share of common stock is computed by dividing net income by the weighted average number of shares of common stock outstanding during the year. Earnings and dividends per share are restated for all stock splits and stock dividends through the date of issuance of the consolidated financial

statements.

Comprehensive income

Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on securities available-for-sale which are also recognized as separate components of equity.

The following information discloses the reclassification adjustments for each component of accumulated other comprehensive income, including the consolidated statement of income items affected as of December 31, 2021:

<u>Accumulated Other Comprehensive Loss Components</u>	<u>Reclassification Amount</u>	<u>Affected Line Item in the Consolidated Statements of Income</u>
Unrealized gains on securities available-for-sale	\$ 2,848,154	Net realized gain on sale of securities
	<u>(598,112)</u>	Federal income tax expense
Total reclassifications for the period	\$ <u>2,250,042</u>	Reclassification adjustment, net of tax

The following information discloses the reclassification adjustments for each component of accumulated other comprehensive income, including the consolidated statement of income items affected as of December 31, 2020:

<u>Accumulated Other Comprehensive Loss Components</u>	<u>Reclassification Amount</u>	<u>Affected Line Item in the Consolidated Statements of Income</u>
Unrealized gains on securities available-for-sale	\$ 2,117,206	Net realized gain on sale of securities
	<u>(444,613)</u>	Federal income tax expense
Total reclassifications for the period	\$ <u>1,672,593</u>	Reclassification adjustment, net of tax

Dividend Restriction

Banking regulations require maintaining certain capital levels and may limit the dividends paid by the Bank to the Company or by the Company to its shareholders.

Advertising

Advertising and marketing costs are expensed as incurred. Advertising and marketing expense was \$614,567 and \$446,288 for the years ended December 31, 2021 and 2020, respectively.

Off-balance sheet financial instruments

In the ordinary course of business, the Company has entered into off-balance sheet financial instruments consisting of commitments to extend credit. Such financial instruments are recorded in the consolidated financial statements when they are funded.

Subsequent events

The Company has evaluated subsequent events for recognition and disclosure through February 17, 2022, which is the date the consolidated financial statements were available to be issued.

Recent accounting pronouncements

The FASB issued ASU 2016-02 “Leases (Topic 842)”, which requires lessees to recognize lease assets and liabilities on the balance sheet and requires expanded disclosure about leasing arrangements. The new standard is effective for the year ended December 31, 2022. Management has assessed the impact of the new standard, which will be immaterial to the consolidated financial statements.

The FASB issued ASU 2016-13, “Financial Instruments-Credit Losses: Measurement of Credit Losses on Financial Instruments (Topic 326)”, which changes the impairment model for most financial assets. This ASU is intended to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. The underlying premise of the ASU is that financial assets measured at amortized cost should be presented at the net amount expected to be collected, through an allowance for credit losses that is deducted from the amortized cost basis. The allowance for credit losses should reflect management’s current estimate of credit losses that are expected to occur over the remaining life of a financial asset. The income statement will be affected for the measurement of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected credit losses that have taken place during the period. ASU 2016-13 is effective for annual and interim periods beginning after December 15, 2022. With certain exceptions, transition to the new requirements will be through a cumulative effect adjustment to opening retained earnings as of the beginning of the first reporting period in which the guidance is adopted. Management has assessed the impact of the new standard, which will be immaterial to the consolidated financial statements.

Reclassification

Certain items in the prior year consolidated financial statements were reclassified to conform to the current year presentation. Reclassifications had no effect on prior year net income or shareholders’ equity.

2. INVESTMENT SECURITIES:

Management does not intend to sell these securities, and it is more likely than not the Bank will retain, and not be required to sell, the securities in an unrealized loss position prior to the recovery of value. The decline in market value is due to fluctuations in market interest rates and not credit quality. The fair values are expected to recover as securities approach their maturity dates.

Qualified Affordable Housing Project Investment

The Bank holds investments in qualified affordable housing projects totaling \$864,291 and \$931,589 at December 31, 2021 and 2020, respectively. The unfunded commitment at December 31, 2021 related to investments in qualified affordable housing projects are \$480,290. The Bank's anticipates fulfilling these commitments as follows:

2022	\$ 291,805
2023	75,532
2024	26,985
2025	21,261
2026	17,713
Thereafter	<u>46,994</u>
	\$ 480,290

During 2021 and 2020, the Bank recognized tax credits in connection with its investment in qualified affordable housing projects of \$63,000 and \$41,000, respectively.

3. LOANS RECEIVABLE:

Loans receivable consist of the following, net of deferred loan fees (in thousands):

	<u>2021</u>	<u>2020</u>
Residential real estate:		
Construction	\$ 4,222	4,751
Owner occupied	129,845	96,844
Non-owner occupied	44,485	39,702
Commercial real estate:		
Construction	12,135	7,541
Farmland	30,321	25,184
Nonfarm	98,843	81,829
Commercial and industrial	20,192	18,282
Consumer	35,653	41,233
Other	<u>654</u>	<u>201</u>
	376,350	315,567
Less allowance for loan losses	<u>(4,888)</u>	<u>(5,573)</u>
	\$ <u>371,462</u>	<u>309,994</u>

The risk characteristics applicable to each segment of the loan portfolio are described as follows:

Residential real estate loans are secured by 1 - 4 family residences and are generally owner-occupied.

The Bank generally establishes a maximum loan-to-value ratio and requires private mortgage insurance if that ratio is exceeded. Repayment of these loans is primarily dependent on the personal income of the borrowers, which can be impacted by economic conditions in their market area, such as unemployment levels. Repayment can also be impacted by changes in property values of residential properties. Risk is mitigated by the fact that the loans are of smaller individual amounts and spread over a large number of borrowers.

Commercial real estate loans, including farmland and nonfarm loans, are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate lending typically involves larger loan principal amounts and the repayment of these loans is generally dependent on the successful operation of the property securing the loan or the business conducted on the property securing the loan. Commercial real estate loans may be more adversely affected by conditions in the real estate markets or in the general economy. The characteristics of properties securing the Bank's commercial real estate portfolio are diverse, but by geographic location are almost entirely in the Bank's market area. Management monitors and evaluates commercial real estate loans based on cash flow, collateral, geography and risk grade criteria.

Construction loans related to both residential and commercial loans are underwritten utilizing feasibility studies, independent reviews and financial analysis of the developers and property owners. Construction loans are generally based on estimates of costs and value associated with the complete project. These estimates may be inaccurate. Construction loans often involve the disbursement of substantial funds with repayment substantially dependent on the success of the ultimate project. Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term lenders, sales of developed property or an interim loan commitment from the Bank until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their ultimate repayment being sensitive to interest rate changes, governmental regulation of real property, general economic conditions and the availability of financing.

Commercial and industrial loans are primarily based on the identified cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers, however, may not be expected and the collateral; securing these loans may fluctuate in value. Most commercial loans are secured by the assets being financed or other business assets, such as accounts receivable or inventory, and may include a personal guarantee. Short-term loans may be made on an unsecured basis. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrowers to collect amounts due from its customers.

Consumer loans consist substantially of automobile loans. Automobile loans are generally secured by the automobile being financed or other personal assets. Repayment of these loans is primarily dependent on the personal income of the borrowers, which can be impacted by economic conditions in their market area, such as unemployment levels, and secondarily on the collateral securing the loan. Risk is mitigated by the fact that the loans are of smaller individual amounts and spread over a large number of borrowers.

Credit risk profile categories

The Bank assigns credit risk grades to evaluated loans using grading standards employed by regulatory agencies. The following are the bank's internally assigned grades:

Pass – loans in this category are considered satisfactory or fair. Satisfactory loans represent the Bank's standard or average loans that require a normal amount of supervision. These credits should have orderly updated credit files with borrowers/guarantors that have an acceptable net worth and sufficient income to retire debt.

Special Mention – special mention loans that do not currently expose the Bank to a sufficient degree of risk to warrant a substandard classification. However, it does possess credit deficiencies or potential weaknesses deserving management's close attention. If not corrected, such weaknesses or deficiencies may expose the Bank to an increased risk of loss in the future.

Substandard – an asset classified as substandard is inadequately protected by the current net worth and paying capacity of the borrower or the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Doubtful – an asset classified as doubtful has all the weaknesses inherent in those classified Substandard with the added characteristic that the weaknesses make collection or liquidation in full, based on currently existing facts, conditions, and values, highly questionable and improbable.

Loss – the portion of a loan classified as loss is considered uncollectible and of such little value that its continuance as an asset, without establishment of a specific valuation allowance or charge-off, is not warranted. This classification does not necessarily mean that an asset has absolutely no recovery or salvage value; but rather, it is not practical or desirable to defer reserving for a basically worthless asset even though a partial recovery may occur in the future.

The recorded investment in loans excludes accrued interest receivable and loan origination fees, net due to immateriality. For purposes of this disclosure, the unpaid principal balance is not reduced for partial charge-offs. There were no outstanding commitments to lend additional amounts to borrowers who have impaired loans at December 31, 2021.

Troubled Debt Restructurings

If a borrower is experiencing financial difficulty, the Bank may consider, in certain circumstances, modifying the terms of their loan in a troubled debt restructuring (TDR) to maximize collection of amounts due. Within each of the Company's loan classes, TDRs typically involve either a reduction of the stated interest rate of the loan or an extension of the loan's maturity date(s) with a stated rate lower than the current market rate for a new loan with similar risk. Modifying the terms of loans may result in an increase or decrease to the allowance for loan loss (ALLL) depending upon the terms modified, the method used to measure the ALLL for a loan prior to modification, and whether any charge-offs were recorded on the loan before or at the time of modification.

The following table provides a summary of loans modified in a TDR during the year:

	Number of <u>Contracts</u>	Pre-Modification Outstanding Recorded <u>Investment</u> (Dollars in thousands)	Post-Modification Outstanding Recorded <u>Investment</u>	Effect on ALLL upon <u>Modification</u>
December 31, 2021:				
Troubled Debt Restructurings				
Residential real estate:				
Owner occupied	3	\$ 529	544	-
December 31, 2020:				
Troubled Debt Restructurings				
Residential real estate:				
Owner occupied	1	\$ 18	23	-

The three troubled debt restructured loans shown in the table were modified during 2021 with a lower interest rate and longer repayment terms.

At December 31, 2021 and 2020, the Bank had a recorded investment of \$1,168,604 and \$643,411 in TDRs, respectively. The Bank has not committed to lend additional amounts to these borrowers. No troubled debt restructurings subsequently defaulted as of December 31, 2021 and 2020, respectively.

At December 31, 2021 and 2020, \$169,064 and \$85,428, respectively, of overdrafts on deposit accounts have been reclassified and included in the loan receivable balance.

Loan Servicing

Mortgage loans the Bank services for others are not included in the accompanying consolidated financial statements. The Bank sells loans in the secondary market under terms of a Mortgage Purchase Program (“MPP”) with the Federal Home Loan Bank (“FHLB”) – Cincinnati and the Federal Home Loan Mortgage Corporation and Freddie Home Loan Mortgage Corporation (“Freddie Mac”). The unpaid principal balance of loans serviced for others, including loan participations, as of December 31, 2021 and 2020 was \$136,147,388 and \$119,535,267, respectively. Custodial escrow balances maintained in connection with serviced loans (both sold and retained) were \$1,056,176 and \$942,493, respectively.

Mortgage servicing rights

The following is an analysis of the activity of mortgage servicing rights, which are included in other assets on the consolidated balance sheets, for the years December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Balance, beginning of the year	\$ 711,154	612,334
Additions, net	366,047	557,450
Amortization	<u>(332,822)</u>	<u>(458,630)</u>
Balance, end of the year	\$ <u>744,379</u>	<u>711,154</u>

No impairment has been identified on the mortgage servicing assets and correspondingly, no valuation allowance has been recognized as of December 31, 2021 and 2020. The Bank recorded gains from sales of mortgage loans including associated servicing rights of \$1,121,948 and \$1,511,745 during 2021 and 2020, respectively. These gains are recorded in gain on sale of loans on the consolidated financial statements.

Under terms of the Mortgage Purchase Program, a fixed Lender Risk Account (LRA) is established and is maintained by the FHLB on behalf of the Bank and other members selling mortgages in an aggregated pool to the FHLB - Cincinnati. The Bank had on deposit in LRA with the FHLB - Cincinnati \$434,389 and \$471,188 at December 31, 2021 and 2020, respectively. These accounts are held by the FHLB and the Bank bears the risk of receiving less than 100% of its LRA contribution in the event of losses, either by the Bank or other members selling mortgages in the aggregated pool. If losses incurred in the pool are greater than the Bank’s LRA contribution, such losses will be deducted from the LRA contribution of other members. Any portion of the LRA not used to pay losses will be released over a thirty-year period starting five years after the initial pool period. The Bank included income (expense) of \$45,652 and \$43,244 in other income on the statements of operations during the years ended December 31, 2021 and 2020, respectively. The estimated LRA balance included in other assets on the consolidated balance sheets is \$306,000 at December 31, 2021 and 2020, respectively. These amounts represent present values of the estimated future cash flows to be received. Unless the Bank is required to repurchase a loan because it did not meet the criteria under the representations and warranties to be covered as part of the aggregated pool, the credit risk on these loans is limited to the amount provided in the LRA.

4. OTHER REAL ESTATE OWNED:

The Bank had \$162,900 and \$0 in real estate held for sale at December 31, 2021 and 2020, respectively. During 2021 and 2020, there were \$122,201 and \$64,713, respectively, in foreclosure losses charged-off to the allowance for loan losses. The Bank realized related gains(losses) of \$43,579 and (\$16,373) on

disposal of foreclosed real estate during 2021 and 2020, respectively. Other real estate owned expenses recognized in other expenses during 2021 and 2020 were immaterial to consolidated financial statements.

5. PREMISES AND EQUIPMENT:

Premises and equipment at December 31 consist of the following (in thousands):

	<u>2021</u>	<u>2020</u>
Land	\$ 3,896	3,093
Buildings	10,002	8,717
Equipment	<u>5,763</u>	<u>5,216</u>
Total	19,661	17,026
Accumulated depreciation	<u>(7,516)</u>	<u>(6,922)</u>
	<u>\$ 12,145</u>	<u>10,104</u>

6. DEPOSITS:

At December 31, 2021, the scheduled maturity of time deposits is as follows (in thousands):

Under one year	\$ 91,667
One to three years	41,868
Three to five years	7,165
More than five years	<u>409</u>
	<u>\$ 141,109</u>

Total non-interest bearing deposits were \$151,707,466 and \$108,884,923 at December 31, 2021 and 2020, respectively.

Time deposits of \$250,000 or more were \$9,082,303 and \$7,019,125 at December 31, 2021 and 2020, respectively.

7. BROKERED DEPOSITS:

The Bank is a network participant in the Certificate of Deposit Account Registry Service (CDARS) network. As part of this network and participation in the CDARS reciprocal program, the Bank can accept FDIC insured deposits as a broker for customers up to \$500 million. This program allows the Bank to accept deposits on the customers' behalf, place them in the CDARS program, and receive matching reciprocal funds from the CDARS network. At December 31, 2021 and 2020, the Bank had received approximately \$12,333,255 and \$13,661,035, respectively, in deposits on behalf of customers and received matching reciprocal funds in the same amount under the CDARS program.

The Bank is a network participant in the Insured Cash Sweep (ICS) network. As part of this network and participation in the ICS reciprocal program, the Bank can accept FDIC insured deposits as a broker for customers with multi-million-dollar savings accounts. This program allows the Bank to accept deposits on the customers' behalf, place them in the ICS program, and receive matching reciprocal funds from the ICS network. At December 31, 2021 and 2020, the Bank had received approximately \$45,324,000 and \$31,920,000, respectively, in deposits on behalf of customers and received matching reciprocal funds in the same amount under the ICS program.

8. FEDERAL HOME LOAN BANK ADVANCES:

The Bank has fixed-rate advances of \$181,862 and \$10,237,728 at December 31, 2021 and 2020, respectively. The advances mature in various years through 2038. At December 31, 2021, the interest rate on all fixed rate advances were 1.60%. At December 31, 2020, the interest rates on the fixed rate advances ranged from 1.60% to 1.64%, with a weighted average interest rate on fixed-rate debt of 1.64%.

During 2021, the Bank renewed a "Cash Management Advance" (CMA) credit line with the FHLB to a maximum of \$15,000,000. Interest due on advances from the FHLB will be at either a variable rate set daily for 90 days, or a fixed rate for up to 30 days at the Bank's option. There were no amounts outstanding under this agreement at December 31, 2021 and 2020, respectively.

The contractual maturities of the advances by year are as follows (in thousands):

2022	\$	11
2023		10
2024		10
2025		11
2026		11
Thereafter		<u>129</u>
		<u>\$ 182</u>

As collateral for the FHLB advances and potential advances from the FHLB above, the Bank has pledged residential one-to-four family mortgages equal to 100% of the outstanding balance and its investment in FHLB stock.

9. SUBORDINATED DEBT:

During 2020, the Company entered into unsecured subordinated debt agreements. The notes are for a combined \$15,000,000 principal balance, with a fixed interest rate of 5.25% paid in arrears through semiannual interest only payments, all interest and principal are due upon maturity on April 24, 2030. Unless stipulated events transpire, these notes are redeemable by the Company after April 24, 2025. These notes and related interest are subordinate in right of payment to all senior indebtedness including obligations to general and secured creditors, and unsecured creditors. Balances are shown net of debt issuance costs.

10. FEDERAL INCOME TAXES:

Federal income tax expense (benefit) consists of the following (in thousands):

	<u>2021</u>	<u>2020</u>
Current	\$ 1,409	1,421
Deferred	<u>78</u>	<u>(99)</u>
Total	\$ <u>1,487</u>	<u>1,322</u>

The effective tax rate varies from the federal statutory tax rate primarily due to the following (in thousands):

	<u>2021</u>	<u>2020</u>
Federal income taxes computed at statutory rates	\$ 1,687	1,536
Increase (decrease) in taxes resulting from:		
Tax exempt interest	(347)	(205)
Bank owned life insurance earnings	(49)	(31)
Nondeductible merger expenses	101	-
State income taxes, net of federal benefits	30	-
Other	<u>65</u>	<u>22</u>
Total	\$ <u>1,487</u>	<u>1,322</u>

The net deferred tax asset (liability) is recorded on the consolidated balance sheet at December 31, 2021 and 2020 and consists of the following (in thousands):

	<u>2021</u>	<u>2020</u>
Deferred tax assets:		
Allowance for loan losses	\$ 872	1,058
Nonaccrual interest	30	26
Intangibles	331	377
Net operating loss carryforward	<u>17</u>	<u>-</u>
Deferred tax assets	<u>1,250</u>	<u>1,462</u>
Deferred tax liabilities:		
Net unrealized holding gains on securities	(310)	(1,475)
Property and equipment	(439)	(335)
FHLB stock dividends	(11)	(11)
Mortgage servicing rights	(136)	(185)
Other	<u>1</u>	<u>-</u>
Deferred tax liabilities	<u>(897)</u>	<u>(2,006)</u>
Net deferred tax asset (liability)	<u>\$ 353</u>	<u>(544)</u>

11. RETIREMENT PLAN:

The Bank has a 401(k) plan that covers all employees who have completed one year of service and reached a minimum age of 21 years old. The Bank may make discretionary contributions, and contributed \$291,325 and \$239,659 to the plan during each of the years ended December 31, 2021 and 2020, respectively.

12. COMMITMENTS AND CONTINGENT LIABILITIES:

In the normal course of business, the Bank has outstanding various commitments to extend credit. At December 31, 2021 and 2020, the Bank had approximately \$54,626,000 and \$39,798,000, respectively, of such commitments, all of which were at fixed or variable rates of interest. Commitments to extend credit are agreements to lend. No material losses or liquidity demands are anticipated as a result of these commitments. The Bank had standby letters of credit outstanding of \$20,110,000 and \$0 at December 31, 2021 and 2020, respectively.

The Bank evaluates each customer's creditworthiness on a case-by-case basis in accordance with the Bank's credit policies. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based upon management's credit evaluation of the customer. Collateral held varies but may include business assets of commercial borrowers as well as personal property and real estate of individual borrowers or guarantors.

The Bank grants agri-business, commercial, residential and installment loans to customers in the surrounding areas of its offices. Although the Bank has a diversified loan portfolio, a substantial portion of its debtors' ability to honor their commitments is dependent upon the local economic sector. As of December 31, 2021, the Bank had \$32,567,816 of loans outstanding for agricultural purposes, or secured by agricultural property.

13. RELATED PARTY TRANSACTIONS:

Directors, officers and certain related parties had loans outstanding during the years ended December 31, 2021 and 2020. This amount includes unused lines of credit. The directors and officers mentioned above were customers in the ordinary course of business. Additional transactions may be expected in the ordinary course of business in the future. All outstanding loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with others and did not involve more than a normal risk of collectability or present other unfavorable features.

The following is an analysis of the activity of such loans for the years indicated (in thousands):

	<u>2021</u>	<u>2020</u>
Balance, beginning of year	\$ 2,573	3,247
Loans originated	803	801
Repayments	(853)	(686)
Reclassification of loan, no longer a director	-	(1,409)
New directors/officers	<u>-</u>	<u>620</u>
Balance, end of year	\$ <u>2,523</u>	<u>2,573</u>

The Bank held deposits for directors, officers and certain related parties of \$1,916,867 and \$2,289,860 at December 31, 2021 and 2020, respectively.

14. FAIR VALUE:

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Bank has the ability to access.
- Level 2 inputs are significant other observable inputs other than Level 1 prices such as quote prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following methods and assumptions were used by the Bank in estimating the fair value disclosures for financial instruments:

Investment securities

The fair values of available-for-sale securities are determined by various valuation methodologies. Where quoted market prices are available in an active market, securities are classified within Level 1. Level 1

securities include U.S. Treasuries and exchange-traded equity securities. For securities traded in secondary markets for which quoted market prices are not available, the fair values are estimated by using pricing models or quoted prices of securities with similar characteristics. Level 2 securities include obligations of U.S. government corporations and agencies, mortgage-backed securities, certificates of deposit, collateralized mortgage obligations and other securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Loans held-for-sale

These loans are carried at the lower of cost or fair value, which is evaluated on a pool-level basis. The fair value of loans held for sale is determined using quoted prices for similar assets, adjusted for specific attributes of that loan or other observable market data, such as outstanding commitments from third party investors.

Impaired loans

Loans for which it is probable that the Bank will not collect all principal and interest due according to contractual terms are measured for impairment. Allowable methods for estimating fair value include using the fair value of the collateral for collateral dependent loans or, where a loan is determined not to be collateral dependent, using the discounted cash flow method.

Mortgage servicing rights

Mortgage servicing rights are evaluated annually for impairment based upon the fair value of the rights as compared to carrying amount. If the carrying amount of an individual tranche exceeds fair value, impairment is recorded on that tranche so that the servicing asset is carried at fair value. Fair value is determined at a tranche level, based on market prices for comparable mortgage servicing contracts (Level 2), when available, or alternatively based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model utilizes interest rate, prepayment speed, and default rate assumptions that market participants would use in estimating future net servicing income and that can be validated against available market data.

Other real estate owned

Real estate acquired through foreclosure assets are adjusted to fair value upon transfer of the loans to foreclosed assets. Subsequently, foreclosed assets are carried at the lower of carrying value or fair value. Fair value is based upon independent market prices, appraised values of the collateral or management's estimation of the value of the collateral. When the fair value of the collateral is based on an observable market price, the Bank records the foreclosed asset as nonrecurring Level 2.

Lender risk account

The fair value is determined by discounting the expected cash flows by the 10-year and 30-year treasury rate depending on payment terms from the FHLB. The expected cash flows consider a default rate on loans and an estimated loss on defaulted loans. The default rate is based on delinquency data from the FDIC for all institutions in Ohio. The estimated loss is based on the charge-off percentage for loans for all financial institutions in Ohio.

Fair value measurements for certain assets and liabilities measured at fair value on a recurring basis (in thousands):

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant other observable inputs (Level 3)
December 31, 2021:				
US Treasuries	\$ 2,919	-	2,919	-
Mortgage-backed securities	132,249	-	132,249	-
Asset-backed securities	13,816	-	13,816	-
State and political subdivisions	185,207	-	185,207	-
December 31, 2020:				
Mortgage-backed securities	\$ 68,156	-	68,156	-
Asset-backed securities	9,923	-	9,923	-
State and political subdivisions	122,650	-	122,650	-

Fair value measurements for certain assets and liabilities measured at fair value on a non-recurring basis (in thousands):

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant other observable inputs (Level 3)
December 31, 2021:				
Impaired loans	\$ 1,274	-	1,274	-
Real estate owned	163	-	163	-
Mortgage servicing rights	744	-	744	-
Lender risk account	306	-	306	-
December 31, 2020:				
Impaired loans	\$ 1,741	-	1,741	-
Real estate owned	-	-	-	-
Mortgage servicing rights	711	-	711	-
Lender risk account	306	-	306	-

In accordance with accounting standards for financial instruments where quoted market prices are not available, fair values are estimated using present value or other valuation methods.

15. REGULATORY MATTERS:

Banks and holding companies are subject to regulatory capital requirements administered by federal banking agencies. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. The net unrealized gain or loss on available for sale securities is not included in computing regulatory capital. Management believes as of December 31, 2021, the Bank meets all capital adequacy requirements to which they are subject.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as in asset growth and expansion, and capital restoration plans are required. At year-end 2021 and 2020, the most recent regulatory notifications categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the institution's category.

The Company's and the Bank's actual capital amounts and ratios as of December 31, 2021 and 2020 are presented in the table below (dollars in thousands):

December 31, 2021:		Actual		Minimum Capital Requirement		Minimum to Be Well Capitalized Under Prompt Corrective Action Provisions	
	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>	
Total capital to risk-weighted assets:

Dividend restrictions

All State of Ohio Chartered Banks are subject to the dividend restrictions set forth by the State of Ohio. Under such restrictions, the Bank may not, without the prior approval of the Superintendent of Banks of the State of Ohio, declare dividends in excess of the sum of the current year's earnings (as defined) plus the retained earnings (as defined) from the prior two years. The dividends, as of December 31, 2021, that the Bank could declare, without the approval of the Superintendent of Banks of the State of Ohio, amounted to \$14,486,631.

16. REVENUE FROM CONTRACTS WITH CUSTOMERS:

The Bank's revenue from contracts with customers in the scope of ASC 606 is recognized within Other income (loss). The following table presents the Bank's sources of non-interest income for the twelve months ended December 31, 2021 and 2020. Items outside the scope of ASC 606 are noted as such.

	<u>2021</u>	<u>2020</u>
Other income (loss):		
Gain (loss) on sale of other real estate owned	\$ 43,579	(16,373)
Service charges on deposit accounts	1,404,923	1,070,853
ATM service charges and other fees, net	<u>1,919,645</u>	<u>1,268,319</u>
	<u>\$ 3,368,147</u>	<u>2,322,799</u>

A description of the Bank's revenue streams accounted for under ASC 606 follows:

Loss on sale of other real estate owned - the Bank records a gain or loss from the sale of other real estate owned when control of the property transfers to the buyer, which generally occurs at the time of an executed deed. When the Bank finances the sale of other real estate owned to the buyer, the Bank assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the other real estate owned asset is derecognized and the gain or loss on the sale is recorded upon transfer of control of the property to the buyer. In determining the gain or loss on the sale, the Bank adjusts the transaction price and related gain or loss on sale if a significant financing component is present.

Service charges on deposit accounts - the Bank earns revenue from its deposit customers for transaction-based activities, account maintenance, and overdraft fees. Transaction-based fees, which include services such as stop payment charges, statement rendering, and ACH fees are recognized at the time the transaction is executed as that is the point in time the Bank fulfills the customer's request. Account maintenance fees, which relate primarily to monthly maintenance, are earned over the course of a month, representing the period over which the Bank satisfies the performance obligation. Overdraft fees are recognized at the point in time that the overdraft occurs. Service charges on deposits are withdrawn from the customer's account balance.

ATM Service charges and other fees, net - The Bank earns fees from cardholder transactions conducted through debit cards and the ATM network. Fees from cardholder transactions are recognized concurrent with the transaction processing services provided to the cardholder. Income is presented on the Consolidated Statements of Income net of expenses. Other income (loss) includes other recurring revenue streams such as wire transaction fees, safe deposit rental income, insurance commissions, and merchant referral income. Transaction fees primarily include check printing sales commissions, collection fees and wire transfer fees which arise from in-branch transactions. Safe deposit rental income arises from fees charged to the customer on an annual basis and recognized upon receipt of payment. Insurance commissions are agent commissions earned by the Bank upon the effective date of the coverage. Revenue is recognized at the point in time when the transaction occurs.

17. CONDENSED FINANCIAL STATEMENTS OF FIRST STATE BANCORP (PARENT COMPANY ONLY):

The following condensed financial information comprising the financial position, results of operations and cash of flows of First State Bancorp, Inc. as of and for years ended, December 31, 2021 and 2020, respectively:

Condensed Balance Sheets

	<u>2021</u>	<u>2020</u>
Assets:		
Cash and cash equivalents	\$ 10,310,739	15,578,509
